Public Awareness Campaign Toolkit

CHILD ABUSE & NEGLECT
Prevention Board

ABOUT THE CAMPAIGN

Five for Families is a statewide public awareness campaign developed as a universal prevention strategy by the Wisconsin Child Abuse and Neglect Prevention Board. The primary goal of the campaign is to increase knowledge of the Protective Factors Framework, an evidence-informed, strengths-based approach to child maltreatment prevention and family well-being promotion created by the [Center for the Study of Social Policy](#).

While the target audiences for the Protective Factors Framework are family support professionals and policy makers, **Five for Families** translates this framework into everyday language for parents, caregivers, friends, neighbors and community members to message the 5 essential strengths that keep every family strong.

Five for Families language was developed in partnership with parents, caregivers and family support professionals. Listed below is the campaign language in relation to the original Protective Factors Framework.

5 Strengths	Protective Factors
Helping Kids Understand Feelings	Social and Emotional Competence of Children
Parenting as Children Grow	Knowledge of Parenting and Child Development
Connecting with Others	Social Connections

Five for Families Campaign to Strengthen Wisconsin Families

The Wisconsin Child Abuse and Neglect Prevention Board is launching the Five for Families campaign that features an interactive website, www.FiveforFamilies.org, to spread the word about the five essential strengths that keep every family strong.

The Five Strengths were identified by the Center for the Study of Social Policy, a national child and family public policy and research organization, as part of their Strengthening Families Protective Factors Framework™. Learning how to build on the Five Strengths can help parents feel more confident, less stressed and better connected to their kids.

The Five Strengths are:

- Helping Kids Understand Feelings
- Parenting as Children Grow
- Connecting with Others
- Building Inner Strength
- Knowing How to Find Help

“All families benefit from the Five Strengths. When these factors are present, research tells us that they support the optimal development of children and reduce the likelihood of child abuse and neglect,” states Child Abuse and Neglect Prevention Board’s Executive Director, [**NAME OF EXECUTIVE DIRECTOR**].

At the website, www.FiveforFamilies.org, parents can access information and everyday ideas to help identify and build upon their family strengths. The site features interviews with Wisconsin parents and grandparents sharing their understanding of the Five Strengths and how focusing on these strengths has benefitted their families. The website highlights the role extended family, friends, neighbors and the broader community play in building strength.

Parents, caregivers and professionals working with families were key partners in developing Five for Families. “The Five Strengths help me focus on the positives within families,” states [**NAME, TITLE AND ORGANIZATION**]. “FiveforFamilies.org is a resource for strengths-based information and strategies that I can share with families to help them discover how they are strong and how to build on their strengths.”

The vision of the Wisconsin Child Abuse and Neglect Prevention Board is that every child in Wisconsin grows up in a safe, stable and nurturing environment. For over thirty years, the Board has advocated for policy changes needed for state programs, statutes, policies and budgets to strengthen families, reduce child abuse and neglect, and improve coordination among state agencies providing prevention services.
